

SPONSOR A CO-OP CONNECTIONS EVENT IN YOUR REGION!

In 2017, On Co-op will build on the success of our 2015 outreach initiatives and expand our reach even further! **The Co-op Connections Series will engage more individuals and organizations than ever before with our tailor made regional learning and networking opportunities.** The primary objectives of this series are to foster local co-op networks, enhance community collaboration, support the development of new co-ops and raise co-op awareness province wide.

By partnering with us to sponsor the series - or a specific event in your region - you become a catalyst for a stronger, more vibrant co-operative identity in your region!

Each local event will be tailored to reflect the economic climate and unique requirements of each region. They will also identify opportunities for creating and collaborating on local and regional co-op initiatives, and form sustainable networks across the province.

Creating co-op connections builds stronger, more vibrant co-op communities.
