# WHO WE ARE

The Ontario Co-operative Association **exists to strengthen and unite the co-operative movement in Ontario**. We believe that co-operatives are the solution to creating stronger communities, which help to build a better world.

Our Member-Owners are organizations that **believe in the co-operative principles and are invested in the future of the movement**.

With their commitment, we are able to deliver co-operative research, education, advocacy, networks, tools and resources, that **support the growth and sustainability of all co-operatives and the movement as a whole**.

## A CO-OPERATIVE OF CO-OPERATIVES

We are a non-share capital co-operative that exists to serve its members. In doing so, we support the co-operative sector as a whole. We rely on our membership to provide us with direction on how we can best serve their needs. With their contribution to the board, committees, task groups and sector consultations, we are continually evolving and strive to offer services that are current, relevant and impactful to the co-operative sector in Ontario.

We are the common voice of co-operatives in the province. We communicate with government and advocate for a more favourable environment that allows for the growth and sustainability of our sector. We also raise the awareness of co-ops and credit unions by educating the public and youth on the co-operative business model and its principles.
